

Reborn Everyday With Hot Water

CDR

CDR

Best performer under high pressure.

Every day is an opportunity unknown. Every day is the beginning of something beautiful. A day with endless possibilities. And to make the most of your day, all you need is a great, energetic start to your mornings.

Racold Thermo Ltd has helped begin the days with this spurt of energetic great start for the last 50 years. **A fully owned subsidiary of Ariston Thermo Group**, the world's no. 1 water heating company, Racold is the first company in India to win the National Energy

Conservation Award four times in a row from the Bureau of Energy Efficiency for electric storage water heaters.

The CDR range of water heaters features Racold's SPHP inner tank that gives corrosion resistance, high-pressure withstanding capacity and high energy efficiency. The CDR range comes with a 5-star energy efficiency label for the vertical models and a 4-star rating for the horizontal ones.

Its high-pressure withstanding capacity (8 bar) makes it suitable for high-rise buildings and for high pressure pump applications.

Unique polymer protective coating technology for inner container resists corrosion from hard water. Heating element lasts longer with coating of magnesium anode.

A special anode used with the heat element employs an electrolytic process that protects the heating element from corrosion, thus greatly enhancing its life.

Offers three levels of safety against high temperature & pressure, provided by a high tech adjustable thermostat, cutout & multi function safety valve conforming to International standards.

The super polymer coating ensures no contamination whatsoever, providing hygienic water supply for years.

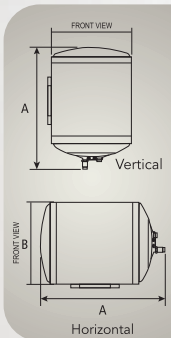

A 5-star rated product. It has a high-density & thick PUF that ensures energy efficiency and reduced electricity bills. 4-star ratings for horizontal models.

Rust proof outer body prevents corrosion leaving no room for rust. Ensures long life for the water heaters.

Technical Data

Model	CDR 10V	CDR 15V/H	CDR 25V/H	CDR 35V
Type	Storage			
Power Supply	230 Volts AC, 50 Hz. Single Phase			
Wattage (kW)	2 kW	2 kW	2kW	2kW
Max. Rated Pressure (bar)	8	8	8	8
Installation Type	V-Wall Mounting			
Dimensions (in mm) A	486	602/607	555/870	701
B	290	290/320	367/320	367

Recommended Capacity* (litres)	
Application	
Ambient Temp. >15°C	Ambient Temp. <15°C
15/25L or above	35L above

All models available in:
Body-White / Inspection Cover-Grey and
Body-Ivory / Inspection Cover-Light Brown.

*Based on climatic conditions & assuming two people bathe consecutively without reheating water. The above chart is indicative only.

Product	2yrs
Heating Element	2yrs
Inner Tank	5yrs

After-sales service

Racold leads the way in service support with:

- Nationwide service technicians with over 145 service centres
- Use of genuine Racold spare parts

Racold is a registered trademark of Ariston Thermo Spa, Italy.

An ISO 9001 : 2008 Certified Company

Customer care number: 1860 425 2288, +91 9243 22 2288

India's largest manufacturer and seller of water heaters
