Gas Water Heater | HOT ON TECHNOLOGY

Every day is an opportunity unknown and the beginning of something beautiful. To make the most of your day, all you need is a great, energetic start to your morning.

Racold has helped you begin your day with this spurt of refreshing energy for the last 50 years. Racold is the first water heater brand in India to be recognised by the Bureau of Energy Efficiency (BEE) successively from 2010 to 2018. Racold has won the "Energy Conservation Award" from 2010 to 2016 followed by the "Most Energy Efficient Appliance of the Year" award in 2017 and 2018. This is the 9th consecutive BEE win for Racold.

At Racold, we believe that safety is the most important factor for choosing any gas water heater. Racold instantaneous gas water heaters come with double solenoid valve which ensures double safety. Its constant feedback ensures constant supply of hot water if the water pressure varies and its auto-timer automatically switches off the water heater after every 20 minutes of continuous operations.

DOUBLE SOLENOID VALVE

Advanced safety feature with two solenoid valves to deliver double safety and complete peace of mind

CHILD LOCK

Added feature for protecting children against accidents

ADVANCED PROTECTION THROUGH SMART FLOW SENSOR
