One Time Investment,
Lifetime Savings!

Delivering excellence in water heating since 60 years

Omega Max8

HIGH PRESSURE WITHSTANDING CAPACITY.

Racold has helped you begin your day with this spurt of refreshing energy for the last 60 years. A fully owned subsidiary of Ariston Thermo Group, the world’s leading thermic solutions company, Racold received Best Performed Manufacturer on Installation of Solar Water Heaters for 2 years in a row awarded by the MNRE, Government of India for the Best Service and Dealer Network in 2014. Racold is the first water heater brand in India to be recognized by the Bureau of Energy Efficiency (BEE) successively for the last 9 years. It has won the “Energy Conservation Award” from 2010 to 2016 followed by the “Most Energy Efficient Appliance of the Year” award in 2018.

High pressure withstanding capacity (up to 8 bar) makes it suitable for pressurised applications.

Specially treated inner container ensures durability and resistance against corrosion.

Magnesium sacrificial anode protects tank from corrosion by forming a layer of magnesium on the inner tank.

Rust proof outer body prevents corrosion, leaving no room for rust.

Italian design collector with textured glass and water proof collector body with high structural strength for dependable performance and high durability.

Multi-function Safety Valve makes your solar water heater the safest with pressure relief, non-return, anti-vacuum and drainage function.

5 year warranty on tank and collector ensuring dependable service.

Omega Max8

Best performer under high pressure

CHARACTERISTICS	SPECIFICATION		ADVANTAGE
Outer body	Zincalume Sheet		Non-corrosive, durable, UV resistant and long life
Inner container material	Food Grade SS 316L, plasma welding by automated machines		High grade stainless steel, corrosion resistant, durable and long life
Special protection for inner container	Passivated with special chemicals		Corrosion resistant, durable and long inner tank life coatings on SS
Pressure withstanding capacity	8 Bar		Capable of withstanding high operating pressure
Safety valve	Italian – 4 in1 Multifunctional Safety Valve		Makes your solar water heater the safest with pressure relief, non-return, anti-vacuum function and drainage function
Container insulation	High density injected PUF with automatic machines		Superior heat retention
Anode	Special Magnesium anode		Additional safety against corrosion ensuring longer life of inner container
Collector Frame for glass retention	Italian design, glass bonded construction		Consistent performance, complete protection against water leakage
Glass Collector	High performance textured toughened glass		Maximize solar water heater performance
Box construction	Single box structure in Zincalume sheet		Sturdy, durable, UV resistant and long life
Electrical Backup (Optional) Thermostat for electrical backup	Tubular, 99.9% pure copper with Italian thermostat cum cut-out		Ensures consistant hot water, all throughout the year
Inner Container Warranty	5 years		Peace of mind
Collector Warranty	Carbon- 5 years	Aluminum- 7 years	Peace of mind

Specifications are subject to change without prior notice

Available in 300- 8 Bar and 500 LPD- 4.5 Bar

Racold leads the way in service support with:

- Nationwide service technicians with over 300 + service centres
- Use of genuine Racold spare parts

Racold is a registered trademark of Ariston Thermo Spa, Italy.
