Alpha Pro

MAXIMUM ENERGY ABSORPTION FOR QUICK HOT WATER.

Racold is India's most trusted brand (as per Brand Trust Report 2016) and one of the largest provider of water heating solutions for over 60 years in India. It is a fully owned subsidiary of Ariston Thermo Group - Italy, the world leaders in the water and environmental heating solutions. Ever since its inception, Racold, has been setting standards in the Indian Water Heating Industry by bringing in new technology, enhancing the aesthetics, quality, safety, durability and performance of the product. Racold has set a new benchmark in the industry for energy efficiency standards and has the distinction of being the only brand in the water heating category to win the prestigious BEE award for the 10th time in 2020. Racold is the only brand in the water heating category to be chosen as a Superbrand in 2019 & 2021.

The Alpha Pro solar water heater uses a high energy absorption vacuum tube of over 1800 mm length, which ensures optimum energy absorption and high efficiency. It is also suitable for hard water applications.

Smart Float*- A unique float valve offered only by Racold that eliminates long air vents to ensure safe usage, particularly in high wind velocity areas.

Specially treated inner container ensures durability and resistance against corrosion.

Rust proof outer body prevents corrosion, leaving no room for rust. Ensures long life for the water heaters.

Racold Vacuum Tubes are of 1800 mm length, in keeping with international standards ensuring optimum energy absorption and higher efficiency.

Racold's unique design ensures durability, low maintenance and blends seamlessly with building aesthetics.

The product comes with a 5 year warranty assuring a dependable service.

CHARACTERISTICS	SPECIFICATION	ADVANTAGE
Outer body	Specially coated Zinalume outer body	UV resistant, non-corrosive, durable and long life
Inner container	Food Grade Stainless steel	Stainless steel, corrosion resistant, durable and long life
Air vent	Special tank design which eliminates the use of air vent	Better aesthetics, easy to install, low maintenance, safe
Special protection for inner container	Local passivation with special chemicals	Non corrosive, protects from chlorides in the water
Container insulation	High density PUF injected with automatic machines	Superior heat retention
Electrical backup* (Optional) Thermostat for electrical backup	99.9% pure copper tubular Italian thermostat with cut-out	Peace of mind

Available in 100, 150, 200, 250 and 300 LPD capacities.

After-sales Service

Racold leads the way in service support with:

- Nationwide service technicians with over 300+ service centres
- Use of genuine Racold spare parts

Racold is a registered trademark of Ariston Thermo Spa, Italy.
