Eterno 2 SMART WAY TO SAVE MORE.

Every day is an opportunity unknown. Every day is the beginning of something beautiful. A day with endless possibilities. And to make the most of your day all you need is a great energetic start to your mornings.

Racold has helped you begin each day with this spurt of energy for a great start over the last 50 years. A fully owned subsidiary of Ariston Thermo Group, the world's leading thermic solutions company, Racold is India's largest provider of water heating solutions. It is the first company to win the energy conservation award from the Bureau of Energy Efficiency 7 times in a row for electric storage water heaters.

The Eterno 2 range has been designed to be a sturdy partner for your great mornings. The titanium enamelled heating element helps extend the life and provides better levels of protection. And, with the SPHP inner tank for corrosion resistance and its 5-star energy efficiency labels, Eterno 2 is high on heating efficiency and low on energy consumption.

The intelligent "Smart Bath Logic" function empowers you to customize your bathing requirement, thus saving precious electricity upto 40%*.

Unique polymer protective coating technology for inner container resists corrosion from hard water.

Its high pressure resistance makes it suitable for high rise buildings and high pressure pump applications.

A special titanium enamelled heating element gives better protection and longer life.

A special anode used with the heating element employs an electrolytic process that protects the heating element from corrosion, thus greatly enhancing its life.

A 5-star rated product, it has a high-density & thick PUF that ensures energy efficiency and reduced electricity bills. Applicable for select models.

A special deflector ensures slow mixing of cold and hot water in inner container, keeping the water hot for longer time thus ensuring less frequent restart, and what's more, you can get up to 10% more hot water.
