Pronto Stylo

ELECTRIC INSTANT WATER HEATER

Italian art for Indian bath.

Every day is an opportunity unknown. Every day is the beginning of something beautiful. A day with endless possibilities. And to make the most of your day, all you need is a great, energetic start to your morning.

Racold has helped you begin each day with this spurt of energy for a great start over the last 50 years. A fully owned subsidiary of Ariston Thermo Group, the world's leading thermic solutions company, Racold is India's largest provider of water heating solutions. It is the first company to win the energy conservation award from the Bureau of Energy Efficiency 7 times in a row for electric storage water heaters.

Pronto Stylo comes with its unique HPR (High pressure resistance) which strengthens the tank and prevents leakage. It has an attractive Italian design and rust proof outer body ensuring longer product life.

Its high pressure resistance makes it suitable for high rise buildings and high pressure pump applications.

Elegant Italian design with a rare combination of technology and style.

Stem-type thermostat and cutout ensures automatic temperature control and extra safety.

The high-power heating element ensures you get hot water in no time.

The Anti-syphoning system prevents the back flow of water from the container, thus avoiding dry heating.

The high density and thick PUF ensures retention of internal heat & temperature, resulting in better energy efficiency & reduced electricity bills.

Provides three levels of safety against high temperature & pressure with cutout, thermostat and safety valve.
