

 **Racold**

Reborn Everyday With Hot Water

SAFE AND RELIABLE
RACOLD WATER HEATERS
FOR EVERY HOME

BRINGING OVER — 60 YEARS OF — TRUST

Reborn Everyday With Hot Water

Racold is India's most trusted brand (as per Brand Trust Report 2016) and one of the largest provider of water heating solutions for over 60 years in India. It is fully owned subsidiary of Ariston Group-Italy, the world leaders in the water and environmental heating solutions. Ever since its inception, Racold, has been setting standards in the Indian Water Heating Industry by bringing in new technology, enhancing the aesthetics, quality, safety, durability and performance of the product.

Racold has set a new benchmark in the industry for energy efficiency standards and has the distinction of being the only brand in the water heating category to win the prestigious BEE award for the 10th time in 2020. Racold is the only brand in the water heating category to be chosen as a Super brand in 2019 & 2021.

WHY CHOOSE — RACOLD FOR — WATER HEATING?

Delivering breakthrough innovation, quality water heating solutions and complete customer satisfaction for over 60 years.

Awarded 10 times by the Bureau of Energy Efficiency from 2010-2020. We place energy efficiency at the heart of our sustainable growth strategy and are deeply committed to energy conservation.

Safety Foremost

Racold Water Heaters have multiple measures for safety against high temperature and pressure. Equipped with features that ensure thermal stability and prevent chances of hazards, when you bring home safe and reliable Racold Water Heaters, all you have to do is turn it on and relax.

Selected Superbrand

Racold is the only brand in the water heating category to be selected as a Superbrand for 2019 and 2021 after an extensive online consumer voting process. It's a testimony of our continuous efforts and deep commitment to creating products that resonates with our customers.

Always At Your Service

Our network of more than 1000 service technicians and 300 service centers across the country are always at your service, for any doubts or assistance. With our 24x7 WhatsApp Chat services and Customer Care services, it's also very easy to reach out to us.

REVOLUTIONARY FEATURES OF RACOLD

EASY WATER HEATING

- Making water heating easier at every step with our smart features.

Wi-Fi CONNECT

Get ease of control anywhere and anytime with Wi-Fi connect.

SMART BATH LOGIC

Customise your bathing experience with Smart Bath Logic.

LIGHTNING FAST HEATING

High powered heating element that provides hot water instantaneously.

QUICK FUNCTION

Set maximum heating temperature with a press of a button. Override temperature settings to get hot water quickly with one-press process.

REVOLUTIONARY FEATURES OF RACOLD

RELIABLE BUILD

- Your long-term partners in water heating.

TITANIUM PLUS

A strong and durable heating tank, made and coated with Titanium alloys, to withstand corrosion and pressure for a long time.

TITANIUM ENAMELED HEATING ELEMENT

For efficiency, strength, low energy consumption and longer life.

SMART SIZES

- Efficient water heating in utilitarian and compact sizes.

SLIM DESIGN

Compact and space-saving designs for modern urban spaces.

ENERGY SAVING

- Sustainable water heating, every time.

ECO FUNCTION

One of our unique set of features, specifically designed to minimize the energy consumption.

REVOLUTIONARY FEATURES OF RACOLD

SAFETY ASSURED

Experience the power of hot water with a complete peace of mind.

AUTO DIAGNOSIS

An advanced microprocessor that safeguards the water heater to ensure complete safety of your family.

OXYGEN DEPLETING SENSOR

Safety sensor that immediately turns-off water heating in case of oxygen depletion to prevent any potential hazard.

DOUBLE SOLENOID VALVE

Advanced feature that delivers twice the safety with two solenoid valves.

SAFETY PLUS

A thermostat, multi-function safety valves and cutout for multiple level of safety against high temperature and pressure.

SILVER-ION TECHNOLOGY

It actively stops proliferation of bacteria to provide healthy and clean bathing water.

70% Energy Savings**

It uses electricity only to move heat from one place to another and not to generate heat, using 70% less electricity compared to conventional water heating solutions.

Heat pump water heaters have a COP (Co-efficient of performance) of 4.25, meaning that the energy produced in the form of hot water is 4.25 times more than that is consumed.

In comparison it with electric water heater the annual saving is ~₹10,000/-

^Savings are calculated @ ₹10 per unit, subject to internal lab test conditions.
